Miryalaguda, Telangana, India

PROFESSIONAL SUMMARY

B.E. Information Technology graduate with hands-on experience building custom Python web applications using FastAPI and React. Delivered Info Verify, an Intelligent Document Processing system with OCR/NER validation pipelines for high-volume recruitment workflows. Skilled in object-oriented programming, SQL databases, debugging, Git version control, and scalable application design. Based in Telangana; open to Hyderabad.

CORE COMPETENCIES

Python Application Development

Object-Oriented Programming (OOP)

Software Design Principles

FastAPI & React

Custom Software Solutions

Git & Version Control

Debugging & Troubleshooting

Agile Methodologies

Testing & Documentation

PROJECTS

Info Verify

Custom Python/FastAPI + React application for intelligent document processing - OCR, NER, and regex validation for recruitment documents (Aadhaar, marksheets, GATE scorecards).
Python, FastAPI, React, PaddleOCR, NER, Git

Crop Disease Prediction

CNN-based plant disease classification with image preprocessing and augmentation using TensorFlow.
Python, CNN, TensorFlow

Fuel Efficiency Prediction

ANN-based MPG prediction with Pandas/NumPy feature engineering workflows.
Python, TensorFlow/Keras, Pandas, NumPy

EDUCATION

B.E. in Information Technology [MVSR Engineering College, Hyderabad](#) Dec 2021 - May 2025
GPA 8.2/10. Coursework: OOP, DSA, Computer Networks, Database Management, Machine Learning.

CERTIFICATIONS

AI-ML Virtual Internship

EduSkills

Java Programming

Great Learning

SKILLS

Languages: Python, Java, C, SQL
Frameworks: FastAPI, React
Software Engineering: OOP, software design principles, debugging, troubleshooting, clean/maintainable code, unit testing, documentation, problem solving, defect resolution
Process: Git, GitHub (version control), agile methodologies, code reviews, cross-functional collaboration
Databases: MySQL, SQL Server
AI/ML: OCR, NER, NLP, IDP, Pandas, NumPy, PySpark
