PROFESSIONAL SUMMARY

AI-focused Python engineer with hands-on experience building language-model components, computer vision ML systems, and API-integrated production software. Built a domain-specific Small Language Model using Transformers and sequence distillation with synthetic data pipelines, structured JSON output validation, and inference latency optimization. Delivered enterprise REST API automations and a 93.7%-accuracy real-time CV inference system. Strong fundamentals in experimentation, debugging, Git, and cross-functional delivery. Open to Pune/Bangalore (hybrid).

CORE COMPETENCIES

Python & Production Software Engineering

LLMs & Transformers

Fine-tuning & Model Distillation

Structured Outputs & Evaluation

Generative AI Application Development

REST API & System Integrations

Experimentation & Debugging

Git & Modern Dev Workflows

Agile Cross-functional Collaboration

WORK EXPERIENCE

Samyama.ai Nov 2025 - Jan 2026

SDE Intern

Hyderabad

- Built custom Python components for a domain-specific Small Language Model using Transformers and sequence distillation, applying software design principles to production-oriented model workflows.
- Processed 35,506 synthetic training examples with strict JSON schema validation and documented data pipelines for cross-functional review and reproducible experimentation.
- Reduced model inference latency by 2.3 seconds through architecture changes and targeted debugging of serving workflows - optimizing for production quality and responsiveness.
- Collaborated on structured reasoning outputs, iterative fine-tuning cycles, and defect resolution across model evaluation loops.

CloudSire Solutions LLP Nov 2023 - May 2024

Integration Engineer Intern

Hyderabad

- Designed REST API integrations (Jira, Salesforce, ServiceNow, Slack) from business requirements, processing ~100 tickets weekly across enterprise systems.
- Reduced manual support handoffs by 45% by troubleshooting integration failures and resolving cross-platform communication defects.
- Delivered maintainable automation workflows with reliable, well-structured Python code following modern development practices.

RCI (Research Center Imarat) Apr 2023 - Oct 2023

Front-end Engineer Intern

Hyderabad

- Developed a secure intranet collaboration platform with Django, real-time chat, request management, and two-factor authentication.
- Built scalable request-tracking features and troubleshoot issues during testing and deployment of maintainable web components.

Poditivity Connect Oct 2024 - July 2025

Founder's Office & Growth to General Manager

Hyderabad

- Promoted from intern to General Manager, leading a 14-person cross-functional team across operations, research, strategy, and growth.
- Increased social media engagement by 40% through data-informed content strategy and campaign experimentation.

PROJECTS

Bridging Learning Gaps

Real-time Tamil Sign Language to text system achieving 93.7% accuracy with a Flask web interface for live gesture recognition, model inference, and audio output.

Python, OpenCV, MediaPipe, CNN-LSTM, Flask

EDUCATION

B.E. in Information Technology MVSR Engineering College

2021 - 2025

Coursework: OOP, DSA, Computer Networks, Database Management, Machine Learning.

CERTIFICATIONS

Complete AI, Machine Learning & Data Science Bootcamp

Udemy (Andrei Neagoie & Daniel Bourke)

AWARDS & HONORS

2nd Prize, Project Expo 2025 - Bridging Learning Gaps

RDC x IIC, MVSREC

2025

SKILLS

Languages: Python, Java, JavaScript, SQL, C

AI / ML: Transformers, LLMs, fine-tuning, sequence distillation, synthetic data pipelines, structured outputs, OpenCV, MediaPipe, CNN-LSTM, model inference optimization

Frameworks: FastAPI, Flask, Django, React, Node.js

Software Engineering: OOP, software design principles, debugging, troubleshooting, clean/maintainable code, unit testing, documentation, code reviews, problem solving

Integrations & Tools: REST APIs, Git, GitHub, Postman, Jira, Slack, Salesforce, ServiceNow, Jupyter Notebook

Process: Agile methodologies, cross-functional collaboration, experimentation, defect resolution
