PROFESSIONAL SUMMARY

Python and JavaScript engineer with hands-on AI workflow experience - prompting iteration, structured LLM outputs, and API automations. Built and tested language-model components with JSON validation at Samyama.ai; designed REST API and webhook-style integrations across CRM and enterprise tools at CloudSire; drove measurable customer outcomes as General Manager at Poditivity. Strong at researching, experimenting, troubleshooting independently, and explaining technical solutions to non-technical stakeholders. Open to relocate to Pune (Pimple Saudagar).

CORE COMPETENCIES

AI Tools & Prompting Workflows

Python & JavaScript Development

REST APIs & Webhook Integrations

CRM & Business Automations

Experimentation & Troubleshooting

Git & GitHub

React & Node.js

Stakeholder Communication

WORK EXPERIENCE

Samyama.ai Nov 2025 - Jan 2026

SDE Intern

Hyderabad

- Researched, experimented, and implemented structured outputs for a domain-specific language model using Transformers - iterating on prompt-like instructions and JSON schema rules.
- Validated 35,506 synthetic training examples with strict schema testing; documented workflows for reproducible experimentation and cross-functional review.
- Troubleshot inference quality and latency issues, reducing response time by 2.3 seconds through architecture changes and targeted debugging.
- Improved model behaviour across fine-tuning cycles by reviewing failure cases and refining structured reasoning outputs.

CloudSire Solutions LLP Nov 2023 - May 2024

Integration Engineer Intern

Hyderabad

- Built API and webhook-style automations connecting Jira, Salesforce, ServiceNow, and Slack from business requirements - processing ~100 tickets weekly.
- Troubleshot integration and data-flow issues in production, reducing manual support handoffs by 45%.
- Translated non-technical support needs into reliable Python automation workflows with documentation and testing discipline.

Poditivity Connect Oct 2024 - July 2025

Founder's Office & Growth to General Manager

Hyderabad

- Worked with founders and a 14-person team; explained strategy and results clearly to non-technical stakeholders.
- Increased social media engagement by 40% through data-informed experimentation and iterative campaign improvement.

RCI (Research Center Imarat) Apr 2023 - Oct 2023

Front-end Engineer Intern

Hyderabad

- Developed a Django web platform with HTML, CSS, JavaScript, and real-time chat workflows.
- Troubleshot deployment issues and delivered maintainable features aligned to business requirements.

PROJECTS

Bridging Learning Gaps

Real-time AI inference system achieving 93.7% accuracy with a Flask web interface - built through independent research, experimentation, and iterative testing.

Python, JavaScript, Flask, OpenCV, MediaPipe, CNN-LSTM

EDUCATION

B.E. in Information Technology MVSR Engineering College

2021 - 2025

Coursework: OOP, DSA, Computer Networks, Database Management, Machine Learning.

CERTIFICATIONS

Complete AI, Machine Learning & Data Science Bootcamp

Udemy (Andrei Neagoie & Daniel Bourke)

AWARDS & HONORS

2nd Prize, Project Expo 2025 - Bridging Learning Gaps

RDC x IIC, MVSREC

2025

SKILLS

Languages: Python, JavaScript, SQL, Java, HTML/CSS

AI & Workflows: LLMs, prompting, structured outputs, AI workflow experimentation, JSON validation, iterative testing

Frameworks: React, Node.js, Flask, Django, FastAPI

Integrations: REST APIs, webhooks, CRM integrations (Salesforce, Jira, ServiceNow, Slack), Postman

Tools: Git, GitHub, SQL databases, Jupyter Notebook

Soft skills: Independent troubleshooting, explaining technology to non-technical stakeholders, agile collaboration
