PROFESSIONAL SUMMARY

Python software engineer with hands-on experience building custom web applications, REST API integrations, and production Python services. Skilled in Django, Flask, and FastAPI with a track record of delivering maintainable software through object-oriented design, debugging, and cross-functional collaboration. Based in Hyderabad; B.E. Information Technology (2025).

CORE COMPETENCIES

Python Application Development

Object-Oriented Programming (OOP)

Software Design Principles

Django, Flask & FastAPI

REST API Integrations

Git & Version Control

Debugging & Troubleshooting

Agile Methodologies

Solution Design

Code Reviews & Testing

WORK EXPERIENCE

Samyama.ai Nov 2025 - Jan 2026

SDE Intern

Hyderabad

- Built custom Python software components using OOP and software design principles to deliver a domain-specific Small Language Model with Transformers and Sequence Distillation.
- Processed 35,506 synthetic training examples with strict JSON schema validation and documented data pipelines for cross-functional review.
- Reduced model response latency by 2.3 seconds through architecture changes and targeted debugging of inference workflows.
- Collaborated on structured reasoning outputs and defect resolution during iterative fine-tuning cycles.

CloudSire Solutions LLP Nov 2023 - May 2024

Integration Engineer Intern

Hyderabad

- Designed REST API integrations (Jira API, Salesforce, ServiceNow, Slack) from business requirements, processing ~100 tickets weekly.
- Reduced manual support handoffs by 45% by troubleshooting integration failures and resolving cross-platform communication defects.
- Delivered maintainable automation workflows following software engineering best practices.

RCI (Research Center Imarat) Apr 2023 - Oct 2023

Front-end Engineer Intern

Hyderabad

- Developed a secure intranet collaboration platform with Django, HTML, CSS, and Bootstrap including real-time chat, request management, and two-factor authentication.
- Built scalable request-tracking features aligned with business requirements across departments.
- Troubleshot issues during testing and deployment of maintainable Django web components.

Poditivity Connect Oct 2024 - July 2025

Founder's Office & Growth to General Manager

Hyderabad

- Promoted from intern to General Manager, leading a 14-person cross-functional team across operations, research, strategy, and growth.
- Increased social media engagement by 40% through targeted content strategy and digital campaigns.
- Prepared market research and leadership presentations supporting founder-led decision-making.

PROJECTS

Bridging Learning Gaps

Real-time Tamil Sign Language to text system achieving 93.7% accuracy with a Flask web interface for live gesture recognition and audio output.
OpenCV, MediaPipe, Flask, CNN-LSTM

EDUCATION

B.E. in Information Technology MVSR Engineering College 2021 - 2025

CERTIFICATIONS

Complete AI, Machine Learning & Data Science Bootcamp Udemy (Andrei Neagoie & Daniel Bourke)

AWARDS & HONORS

2nd Prize, Project Expo 2025 - Bridging Learning Gaps RDC x IIC, MVSREC 2025

SKILLS

Languages: Python, Java, JavaScript, SQL, C
Software Engineering: OOP, software design principles, debugging, troubleshooting, clean/maintainable code, best practices, documentation, code reviews, unit testing, problem solving
Frameworks: Django, Flask, FastAPI, React, Node.js, Bootstrap
Tools & Platforms: Git, GitHub, Jira, Postman, Slack, Salesforce, ServiceNow, Jupyter Notebook
Process: Agile methodologies, cross-functional collaboration, solution design, defect resolution
AI/ML: Transformers (LLM), Sequence Distillation, OpenCV, MediaPipe, CNN-LSTM
