PROFESSIONAL SUMMARY

Python engineer with hands-on LLM, integration, and customer-delivery experience. Iterated on domain-specific language model behaviour with structured outputs, JSON validation, and evaluation loops at Samyama.ai. Translated business requirements into REST API automations across Jira, Salesforce, ServiceNow, and Slack at CloudSire. Led cross-functional delivery and customer-facing growth work as General Manager at Poditivity. Strong fit for prompt engineering, workflow configuration, integrations, and production debugging. Open to relocate to Gurgaon.

CORE COMPETENCIES

Python & FastAPI

Prompt Engineering & LLM Behaviour

Structured Outputs & Agent Testing

REST API & Webhook Integrations

Business Requirements to Workflows

Production Debugging & Troubleshooting

Customer & Cross-functional Collaboration

Git & Agile Delivery

WORK EXPERIENCE

Samyama.ai Nov 2025 - Jan 2026

SDE Intern

Hyderabad

- Designed and iterated on structured model outputs for a domain-specific Small Language Model using Transformers and sequence distillation - translating requirements into testable prompt-like instructions and JSON schema rules.
- Built and validated 35,506 synthetic training examples with strict schema validation; documented pipelines for reproducible testing and cross-functional review.
- Reduced inference latency by 2.3 seconds through architecture changes and targeted debugging of production-oriented model workflows.
- Reviewed failure cases across fine-tuning cycles to improve output quality, structured reasoning behaviour, and defect resolution.

CloudSire Solutions LLP Nov 2023 - May 2024

Integration Engineer Intern

Hyderabad

- Translated business requirements into REST API integrations across Jira, Salesforce, ServiceNow, and Slack - configuring workflows that automated ~100 tickets weekly.
- Built webhook-style automations and troubleshoot integration, data-flow, and production issues - reducing manual support handoffs by 45%.
- Delivered maintainable Python integration code with testing discipline and documentation for stable deployments.

Poditivity Connect Oct 2024 - July 2025

Founder's Office & Growth to General Manager

Hyderabad

- Worked directly with founders and a 14-person cross-functional team on operations, research, strategy, and customer-facing growth initiatives.
- Increased social media engagement by 40% through data-informed experimentation, campaign iteration, and measurable outcome tracking.

RCI (Research Center Imarat) Apr 2023 - Oct 2023

Front-end Engineer Intern

Hyderabad

- Developed a secure Django intranet platform with real-time chat, request workflows, and two-factor authentication.

- Troubleshoot issues during testing and deployment of maintainable web components aligned to business requirements.

PROJECTS

Bridging Learning Gaps

Real-time computer vision inference system achieving 93.7% accuracy with a Flask web interface for live gesture recognition - built with iterative testing and production-style debugging.

Python, Flask, OpenCV, MediaPipe, CNN-LSTM

EDUCATION

B.E. in Information Technology [MVSR Engineering College](#)

2021 - 2025

Coursework: OOP, DSA, Computer Networks, Database Management, Machine Learning.

CERTIFICATIONS

Complete AI, Machine Learning & Data Science Bootcamp

[Udemy \(Andrei Neagoie & Daniel Bourke\)](#)

AWARDS & HONORS

2nd Prize, Project Expo 2025 - Bridging Learning Gaps

[RDC × IIC, MVSREC](#)

2025

SKILLS

Languages: Python, JavaScript, SQL, Java

AI / LLM: LLMs, Transformers, prompt engineering, structured outputs, JSON schema validation, output evaluation, iterative testing

Frameworks: FastAPI, Flask, Django, React, Node.js

Integrations: REST APIs, webhooks, Jira, Salesforce, ServiceNow, Slack, Postman

Engineering: Production debugging, troubleshooting, documentation, unit testing, Git, GitHub, agile delivery

Databases: SQL, MySQL
